

PLAN FOR FREEING ON TUBERCULOSIS

Department Representatives
Form Committee on
Coming Congress.
\$17,000 PROVIDED
FOR U. S. EXHIBITS

Assistant Secretary of State Bacon
Makes Short Address—\$40,000
to Fit Up Meeting Hall.

Eight representatives of the several Government departments met in the diplomatic room of the State Department yesterday afternoon and formed the departments committee on the international tuberculosis congress.

W. J. Carr, chief clerk of the State Department, was elected chairman, and Maj. M. W. Ireland, of the Army Medical Corps, was elected secretary.

The meeting was opened by Acting Secretary of State Bacon, who in a brief introductory speech told its purpose, and the work intended for it by Congress. Twenty-five thousand dollars was appropriated by Congress to enable the Government to suitably participate in the international tuberculosis congress, which is to meet in the new National Museum building from September 21 to October 12. The Secretary of State was placed in control, and he made arrangements for the meeting.

Departments to Exhibit.

Part of the \$25,000 was allotted to enable the departments to prepare an exhibit. The Treasury will have an exhibit of the work of the Marine Hospital Service; the War Department will have an exhibit of the work done at Ft. Bayard; the Navy Department will exhibit its work, probably at new Ft. Lyon; the Indian Office will have an exhibit of tuberculosis and the work done among the Indians; the Agriculture Department will have an exhibit relative to the tuberculosis in animals, from the Bureau of Animal Industry; and the Census Office will display a number of maps and charts showing the relative distribution of tuberculosis and of deaths from it in the United States. The Smithsonian exhibit will be supplementary to that of the Indian Office.

Seventeen thousand of the \$25,000 were allotted for the exhibits, and at the next meeting the various departments will submit estimates of the amount of floor space required.

\$40,000 to Prepare Hall.

Congress appropriated \$40,000 for the fitting up of the new National Museum building for the accommodation of the Congress. The departments committee is as follows:

W. J. Carr, chief clerk, Department of State.
Assistant Surgeon General A. H. Glenn, Marine Hospital Service, Treasury Department.
Major M. W. Ireland, Army Medical Corps, War Department.
Surgeon General Presley M. Rixey, Navy Department.
Mrs. Elsie E. Newton, special Indian agent, Interior Department.
Col. S. R. Burch, chief clerk, Department of Agriculture.
Dr. S. N. D. North, Director of the Census, Department of Commerce and Labor.
W. de C. Ravenel, Smithsonian Institution.

Union May Exhibit.

Columbia Typographical Union, No. 17, has requested the executive committee of the International Typographical Union to endeavor to arrange for an exhibit at the congress.

Attention will be called to the work of the Union Printers' Home, at Colorado Springs, the old-age pension law, and other charitable and social work that the printers are doing for the health and comfort of their fellow workers. Photographs and statistics will be prepared on these subjects, and papers will be read by competent authorities showing what has been done and what it is hoped to accomplish for the health and comfort of the working printers.

SALVADOR CONTRACTS FOR NEW RAILROAD

Through a contract recently signed with the government of Salvador, an American railroad company will construct a railroad from the port of La Unión, in Salvador, to the Guatemalan frontier. The railroad will then be continued until it connects with the Atlantic railroad in Guatemala, which belongs to the same American company.

This information has been conveyed to Mr. Calvo, the Costa Rican minister, who said it means a material step toward the completion of the Pan-American railroad in Central America, as the distance between Guatemala and Salvador is scarcely ninety miles.

The project does not present any physical difficulties, Minister Calvo says, and there only remains then a short territory to be built over to connect with the Nicaraguan railroad. The latter extends from Chinandega in a southeasterly direction almost parallel to the coast, and will soon be extended to the city of Rivas, near the Costa Rican frontier.

In Costa Rica the Northern railway has a line under construction which runs from the Atlantic railway toward the Nicaraguan frontier, and it is proposed to complete it shortly. In the railway systems of Costa Rica and those of Nicaragua, the Atlantic railway of Costa Rica has a branch running southward which will soon be extended to Rivas de Toro, Panama.

Minister Calvo declares that with the progress now being made it is only a matter of a short time before it will be possible to travel by train from the United States or Canada to the frontier of Panama.

BALLINGER GIVEN CUP BY FRIENDS

A little group of University Club men were hosts last night at dinner in honor of "Jack" Ballinger, who is retiring from the Government service here to practice law in Seattle, Wash., with his cousin, Judge R. A. Ballinger, formerly Commissioner of the General Land Office.

A silver loving cup was presented to Mr. Ballinger, and each of the guests received his initials in a space reserved for this purpose. Among the guests were Wallace Donald McLean, Jasper Wilson, John K. Stauffer, Charles E. Howe, J. W. Pilling, Charles Wilson, of Silver Spring, and Oliver Metzerott, of Maryland.
